

Motor Ace

Region XIV, Mindanao

“They serve and install quickly just like their company name and the best part is that their staff are very approachable, friendly and responds immediately.”

The owner called to ask for a quotation for all the Daikin models in their mind and asked us about the difference of each where we proposed to the owner and area manager the Floor standing model to cover all over the wide space of the room. Given that we have a limited time for the installation, we were able to manage to complete the work within a week.

Why did you choose Daikin?

Because of the brand. Daikin was already famous among the area, already got a lot of good feedback after having Daikin products. Easy to understand, easy to use.

How did you find Daikin?

Other Motor Ace branches recommended to buy Daikin AC units.

Why Did You Choose the Dealer?

QuickServe already served some of our branches, and they have good feedback about their all over service. So, Motor Ace haven't had any difficulties on deciding which dealer to contact when looking for an AC unit and we could tell that QuickServe can indeed give quick response and their staff are well knowledgeable.

How Did You Find the Dealer?

Referral. Other branches already experienced their service was recommended by the manager. 4 branches of Motor Ace, including here, had already served by Quickserve. Also checked on FB. FB rating is more reliable and convincing to see its reliability. Actually more branches plan to have AC from Quickserve.

Comment after installation for Daikin & Dealer?

Through referral of our other branches that has been serviced by QuickServe. They serve and install quickly just like their company name and the best part is that their work is good and neat too. Staff are very approachable, friendly and responds immediately. They also offer free cleaning once a year. I really appreciate their service.
